

Starting on Monday, April 6, all instruction moved to online education. Teachers will post work on Monday morning and is due by the 11:59 on Friday. At Windsor Mill Middle School, students will participate in one class a day for 45 minutes by logging on their teacher's Google Meets Session. During that time, teachers will check in with their students, review the lessons for the week, provide some instruction, and take any questions that students have. Each day, a different subject will meet. On Tuesdays and Thursdays, teachers will hold office hours from 2:00-3:00 via Google Meets. These office hours provide a chance for students and parents to talk to their teacher about issues that are coming up during e-learning.
